## Welcome

April 6th, the sixth edition of The Bull Sale will take place in The Valley. We'd like to welcome you to join us at the event, evaluate the cattle in person and enjoy the weekend with us in the heart of Ohio.

Raising livestock, as you know, is a labor of love. For this set of cattlemen it's motivated by the love of the Shorthorn breed, love of the lifestyle farming provides and, most of all, a love for helping other producers meet their goals.

Over the last five years 330 bulls have sold to 30 states and Canada. Witnessing the impact of our genetics on the Shorthorn breed, for commercial programs and in your herds has been nothing short of a dream for us.

Each year, our operations strive to produce bulls that add value for you. We focus on calving ease, growth and carcass merit, while maintaining the kind of maternal value and phenotype that have made our cowherds so productive. We expect our bulls to raise replacement females any cattleman would be proud to own.

To assist with your selections, a full set of data has been collected on the bulls from birthweight through carcass scans. They are 100K genomically tested, parent verified and tested for known genetic conditions. Every bull sells with a first year breeding guarantee and free delivery to any location in the continental U.S., as well as Canadian ports of entry.

If we can assist you in any way, please do not hesitate to call.

*Sincerely,*

*Lee Miller, Dr. Jeff Byers, Jon Byers, Greg Beckler*

High performing, powerful, and athletic with added depth of quarter. Torque has been a standout his entire life! He ranks in the top 1% for \$BMI and top 5% for WW, YW and \$F. This is the kind of bull built to leave a legacy! Torque was the Champion Early Spring Bull at the NWSS, and the anchor bull in our Reserve Champion Pen of 3 in Denver!

## LOT 5

The last of the ET brothers is a high performing white bull that ranks in the top 1% of the breed for WW, YW, REA, \$BMI and \$F. This bull is built for performance that will add pounds to your calf crop.

*Consigned by Paint Valley Farms*

## LOT 6

Flare is a low birth weight, calving ease bull with added style. The Rosewood cow family traces back to the Lauer herd and is known for their productivity and longevity. He ranks in the top 5% of the breed for \$BMI and the top 1% for CEM and STAY.

RANK	35	45	5	10	2	2	20	30	1	60	85	60	2	10

## LOT 7

A long bull with a very balanced EPD profile that ranks in the top 10% of the breed for WW, YW, REA, \$BMI and \$F while still offering a modest birth weight. Several years ago, we purchased a pair of productive Snapchat daughters in The Maternal Event. 47L is out of one of those 2 Snapchat daughters.

*Consigned by Paint Valley Farms*

## LOT 8

A bigger bull that is long and athletic with a big set of testicles. He has elite maternal traits with CEM, STAY and \$BMI ranking in the top 5% of the breed while still offering calving ease. Another bull out of a cow that hails from the Lauer herd.

RANK	35	75	1	1	10	1	25	10	10	25	50	70	2	1

It is only fitting that we lead off the sons of 1872 with Lincoln 27L, who is out of one of the most proven cows in The Valley. On 7 calves, 138D has a calving interval of 363 days and has been awarded as a Pacesetter Dam multiple times. She also has 3 daughters that have sons in this sale. This bull has the potential to make a significant impact on any breeding program. He will see AI use here this spring.

RANK	50	95	1	1	4	1	40	30	1	15	2	85	1	1

This bull is a powerhouse. With our highest yearling weight, he is sure to add performance to any herd. He ranks in the top 1% of the breed for \$BMI and \$F. His dam was a division winner for Whitney at Jr Nationals in Madison a few years ago. He is a member of our Reserve Champion Pen of 3 in Denver.

*Consigned by Paint Valley Farms*

## LOT 12

This bull is a standout. With his impressive length, stout build, and muscle, he's undoubtedly a powerhouse. Ranking in the top 2% of the breed for both \$BMI and \$F underscores his ability to contribute significantly to the performance of any herd. He's certainly a bull worth considering for those seeking performance traits.

## LOT 17

One of my favorite Palermo sons. 86J offers calving ease with valuable maternal traits. He ranks in the top 10% of the breed for CED, BW, CEM, STAY, \$CEZ and \$BMI! He is out of a powerful good cow in 6M100 that also raised PVF Excel that sold to the Braun family a few years ago.

*Consigned by Paint Valley Farms*

## LOT 18

The Meredith 7W donor has done it again! This more moderate brother of the ET pair offers elite calving ease and style with a dense center of body. He ranks in the top 10% of the breed for CED, BW, CEM, STAY and \$BMI. DS Carrier.

# Heterosis: The Case for Shorthorn Bulls

Paint Valley Farms has been studying the effect of utilizing purebred Shorthorn bulls on a commercial Angus cowherd in Virginia. Each year, 200 cows are bred, half to leading Angus sires and half to PVF Shorthorn bulls.

Birth weights and weaning weights are collected at the farm. Select replacement females are retained in-herd from each sire group for a future study on maternal performance. All steers are fed at Hy-Plains Feedyard in Kansas and sold on the grid at National Beef with a full set of carcass data reported. To learn more and read the case study, watch our entire segment from The American Rancher at [paintvalleyfarms.com](http://paintvalleyfarms.com)

## LOT 40

When we purchased his dam from Phil and Linda Bowman in the fall of 2022, we didn't know she would lay down and give us this stud. He offers breed leading calving ease, is homozygous polled and flat good! The opportunities with this bull are endless. I might add that he ranks in the top 1% of the breed for STAY. His dam has a smoking good sister to Irishman this year!

*Consigned by Paint Valley Farms*

## LOT 41

This longer bull with added shape and big top ranks in the top of the breed for both growth and marbling. His dam is a 2023 Performance Dam with extra power and an excellent udder.

PVF BEAUTY QUEEN 45A, dam of Lot 45

P V F R E M N A N T 4 3 E

# REMNANT

PVF

PVF Remnant 43E Proven breed leader for Calving Ease. The last sons of Remnant sell as lots 41, 42, 43 & 46.

PVF BEAUTY QUEEN 45A, dam of Remnant and Lot 45

While he's never been the most highly-touted bull in our lineup, PVF Remnant 43E will undoubtedly be remembered here for generations as one of the most impactful sires at Paint Valley Farms.

Not only has he proven to be a breed leader in calving ease, he's left us with a set of high performing daughters that are moderate, easy-fleshing and have nice tidy udders.

Remnant cattle excel at birth, on the rail and in the pasture where it counts. Grab your son of Remnant, or his mother, April 6.

## LOT 52

An even roan Top Dog son out of a Saskvalley Outlaw daughter. He is a fault free, well balanced, smooth shouldered, long necked bull that I just love the look of. This bull has a tremendous future! Top 2% \$BMI, top 10% \$F, top 40% \$CEZ.

*Consigned by Byland Farms*

## LOT 53

Here is a moderate framed bull that is a cool dude. He has a nice pattern, deep quarters, and smooth shoulders. He is calving ease prospect with a 15 CED. Out of a Keith Lauer cow.

*Consigned by Byland Farms*

Legit is a full brother to Byland Elite 2SD66. We kept Elite last year as a major herd bull, so we are proud to offer Legit. Legit is long bodied, clean fronted, and well extended with a big top and big sized foot. He ranks in the top 5% \$BMI, top 10% \$F, and top 20% \$CEZ. This is a big-time herd sire prospect. Bulls like this are very hard to locate.

*Consigned by Byland Farms*

## LOT 58

High performance numbers bull here. His EPDs rank in the top 1% for WW, REA, \$BMI and \$F. Top 2% YW and TM. This bull has a great appearance: long neck, long bodied, massive capacity, and lots of muscle on good structure. He is out of the same cow as Byland Cash that is setting sale records at Jungels Shorthorn Farm in North Dakota.

*Consigned by Byland Farms*

## LOT 59

Power and performance bull here. He is big footed, bold in stature, lots of muscle with a deep and wide jaw. He is also very docile. He combines the performance and mass of Soggy Dog with one of our best cows by Leveldale Rolex, going back to a tremendous Gauge cow. Overload ranks in the top 1% of the breed for both \$BMI and \$F. It is very difficult to find a roan bull with this much mass and structural integrity (with performance beyond belief!), all on a frame 6.4 with 40 cm testicles.

This is one of the best Universal sons we have raised. He is so powerful with a big butt end, lots of muscle, and a deep, wide jaw. Lots of performance on a moderate size frame. His Cindy Beauty dam is a moderate sized, deep, wide made perfect cow.

*Consigned by Byland Farms*

## LOT 73

Lower birth weight, calving ease genetics. He is very quiet, attractive, and smaller framed. His brother, by Tonto, sold in this sale last year.

Here is a special young herd sire prospect. From the debut class of PVF Swagger 102J sons, this is an impressive individual. When folks were visiting during Maternal Event, this is the bull that was creating the buzz at our place. His older sister sold to Jess Ropp in Oregon at last year's Maternal Event. Being backed by a Reincarnation cow is a winning maternal combination for a herd sire prospect. Another major league \$BMI and \$F ranking combination. Top 2% MILK, REA, top 3% WW, \$BMI, top 4% YW, top 5% STAY, \$F.

*Consigned by Beckler Farms, LLC*

## LOT 78

17L is yet another example of what Swagger has done for our herd in adding shape and power to our bulls. His young dam is a great uddered young cow doing a nice job early in her career. Posted a 111 WW ratio and 106 YW ratio. He excels in growth traits, as well as \$BMI and \$F. Top 3% REA, top 4% YW, top 5% WW, top 10% \$BMI, \$F.

## LOT 88

Swagger is doing a tremendous job here, and this first crop of sons to come to The Bull Sale will validate that. 42L's Lauer bred dam never misses, always raising a nice calf. We have kept all her daughters in the herd because we think that highly of the family. 42L carries a balanced, high-ranking EPD profile across the whole lineup of traits. Top 5% STAY, top 10% MILK, top 15% YW, top 20% WW, \$F, top 25% BW, MARB, \$BMI.

*Consigned by Beckler Farms, LLC*

## LOT 89

Combines calving ease with stayability. Many people around the breed don't know about Beckler Red Rock, but he's a favorite at our place as our go-to calving ease sire with loads of maternal genetics. Comet carries those traits while also being roan and homozygous polled. His dam is a first-calver, bred on the Flash x Lauer cross we've had such good luck with. Top 1% STAY, top 3% CED, CEM, \$CEZ, top 5% BW, top 15% MARB, \$BMI, DS Carrier.

## OVERVIEW OF EPDS

**Calving Ease Direct (CED):** The CED EPD is listed as a percentage of unassisted calvings. A higher CED EPD predicts a sire that will have a higher percentage of unassisted calves.

**Birth Weight (BW):** Compares the differences in the weight of calves at birth. It is measured in pounds, and cattle with higher BW EPDs are predicted to produce heavier calves.

**Weaning Weight (WW):** The WW EPD is expressed in pounds and predicts differences in weaning weight of a sire's calves. Bulls with higher WW EPDs predict heavier calves across the scale at weaning.

**Yearling Weight (YW):** Just like WW, only at the next stage of life. The YW EPD is expressed in pounds. Higher YW EPDs are likely to produce bigger, heavier yearlings.

**Milk (MK):** The hardest trait to measure, since we don't measure milk production in beef cows. The MK EPD is measured in pounds of calf weaning weight due to his mother's milking ability. A higher MK EPD predicts that a bull will sire daughters who raise heavier calves due to their milk production.

**Total Maternal (TM):** Total Maternal EPD is a simple formula.  $TM = MK \text{ EPD} + \frac{1}{2} WW \text{ EPD}$ . It measures impact on calf weaning weight due to both milk production and the cow's genetics for growth. Bulls with a higher TM EPD should sire daughters with a bigger impact on their calves' weaning weight.

**Calving Ease Maternal (CEM):** Measures the ability of a bull's daughters to calve unassisted as two year olds. The higher the CEM EPD, the easier calving should be when a bull's daughters have that first calf.

**Stayability (ST):** Cows who work longer make more money. The ST EPD predicts the ability of a bull to sire cows that "stay around". The ST EPD is shown as a percentage of how much more likely a bull's daughters will stay in your herd to the age of 6. A higher ST EPD bull is more likely to have daughters stay around for a long time.

**Carcass Weight (CW):** The CW EPD is all about pounds of beef on the rail. Higher CW EPDs mean that a bull is more likely to sire feeders with heavier carcass weights.

**Yield Grade (YG):** The USDA Yield Grade scoring system is the unit of measurement for the YG EPD. Yield Grade 1 are leaner, more retail product carcasses. Lower, more negative YG EPD bulls are expected to sire calves that score better on the USDA Yield Grade scale.

**Ribeye Area (REA):** REA is measures the size of the muscle that gives us the ribeye in square inches. Higher REA EPDs indicate a bull is expected to produce larger ribeyes in their offspring.

**Marbling (MB):** The MB EPD is in units of percentage of intramuscular fat within the ribeye. Higher MB EPD bulls should sire higher marbling (and grading) feeder calves.

**Fat Thickness (FT):** Inches of backfat (in hundredths of an inch) is the unit of measurement for FT. More negative FT EPDs are indicative of a bull that should sire less backfat in his calves.

### INEXES

**\$Calving Ease (\$CEZ):** Genetics that you can trust to calve easy while keeping mature cow size in check. You'll sleep soundly and your heifers will thank you for selecting for high \$CEZ sires.

**\$British Maternal (\$BMI):** A balanced, multi-trait index built to identify the ideal seedstock for crossbreeding on British breed cow herds. \$BMI focuses on the traits you want in your cows: easy calving, maternal performance and moderate mature size, while keeping the growth and carcass merit in your steer calves.

**\$Feedlot (\$F):** For the cattleman who sees value in retaining ownership of feeder cattle. Growth, performance and carcass quality drive \$Feedlot. Cattle bred to grow and grade excel in \$Feedlot.

## GENERAL SALE INFORMATION

**TERMS AND CONDITIONS:** Terms of the sale are cash or check and made payable to Aegerter Marketing Services, Inc., immediately following the sale and before cattle are removed from the premises. The animal becomes the property of the purchaser as soon as sold. Any death or injury thereafter falls upon the buyer.

**BILLED ACCOUNTS:** All billed accounts are due within 10 days following the date of the sale. At 10 days, a two percent service charge will be added to the unpaid balance and an additional two percent will be added every 30 days thereafter unless previous arrangements have been made with the seller.

**ABSENTEE BIDDING:** Online bidding is available via CCI live. Those with unreliable internet should consider calling a representative of the sale far enough in advance prior to sale day. They will be able to assist you at ringside on sale day.

**LIABILITY:** Neither the owners, employees, auctioneer, sale manager nor other affiliated personnel can be responsible for any accidents, but they will make every effort to provide for the safety and comfort of those attending.

**INSURANCE** will be available at the settlement desk upon conclusion of the sale.

**SEMEN INTEREST:** Seller retains a 25% semen interest on all bulls sold unless stated otherwise.

**BREEDING GUARANTEE:** All the bulls will pass a breeding soundness exam. The bulls are guaranteed to be fertile and reproductively sound. This guarantee does not cover injury or death. In the event of a problem, the buyer will have the option to select a suitable replacement, if available, or take a sale credit at the next sale. Any potential claim must be made by Dec 31 of the year of the purchase.

**GENOMIC ENHANCED EPDS:** Every bull selling has been parent verified and has GE-EPDs. EPDs listed in the catalog are the most current at the time of printing.

**GENETIC CONDITIONS:** All animals selling will be free of any known Genetic Conditions as recognized by the American Shorthorn Association unless stated otherwise. All potential carriers will be tested with updates available on sale day.

**HEALTH:** All the bulls will be accompanied by proper health certificate for shipping and have had a complete vaccination program.

**DELIVERY:** We offer free delivery on the bulls to any location in the Continental US and to any port of entry to Canada. We will contact you after the sale to coordinate delivery. Every effort will be made to have the bulls delivered within 3 weeks after the sale.
